Many organizations have concerns to share Big Data Assets

- Potential Business Value
- Intellectual Property Rights
- Data Protection Regulation
- Privacy
- Liability
- etc..

Requirements to address concerns about sharing

- Clearly defined and agreed common benefit
- Common rules governing use, access AND benefit sharing
- Organizing trust amongst group members as means to reduce risk
- Infrastructure supporting the implementation of trust

Example HPCN based Infrastructure Models

- Public cloud model
- Turntable model
- Value hub model
